

Towable Deluxe Unit (with Sink)

Deluxe

Hands-Free Sink

Interior Features

Portable Portables

Towable Deluxe Units **save time, reduce costs**, and make moving a portable toilet from one location to the next considerably easier than a conventional restroom on skids. Each Towable Deluxe Unit comes on a single-axle trailer and can be attached to any car or truck using an industry-standard trailer hitch.

All of our Towable Deluxe Units come equipped with rear reflectors, breakaway chains, and **stabilizer jacks** to keep each restroom in place when detached from a vehicle and positioned for use.

Trailer-mounted restrooms are the ideal solution for landscapers, maintenance crews, and large public works projects.
