

Containment Pan

Designed to Fit Our Regular, Deluxe and Deluxe Plus Portable Toilets

Secure Advantage

National Construction Rentals' containment pans are the perfect answer for short or long-term construction projects, especially if city ordinances require the added protection. Each pan is specifically designed to extend beyond a portable toilet's base, minimizing the capture of rain water while maximizing its purpose of collecting gray water run-off. Made of **high-quality, impact-resistant** HMWPE, National's containment pans provide years of outstanding performance regardless of climate, terrain or need.

National's containment pans are durable. Each is designed to stand up to the norms of an active job site, rigidly holding their shape to fit all of National Construction Rentals' Regular, Deluxe and Deluxe Plus portable toilets. Whether you require a single pan for a small remodel or a dozen for a larger, more complex construction project, call National for a solution that will work best for you today.
